Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

I performed 5 inspections above the required number of 21.5. This included a mid-year site in priority when Eden Valley requested that all 10 sites in their well head protection area be inspected (two were under the minimum number to count for credit) -Completed 11 MPM, normally I assist the producer in the completion of these plans, but due to COVID restrictions, I completed the plans from the producers without them being in the office. -Attended 1 meeting with Forsman's farm and the County Planning and Zoning to discuss their planned site in Meeker county and how best to approach this.
 - Went on site with 2 producers looking to expand and helped provide information as to the best way to proceed
