DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</b></p>

# Audit Findings

## Audit Narrative (including Audit Methodology)

The Prison Rape Elimination Act (PREA) on-site audit of the Meeker County Jail located in Litchfield Minnesota was conducted May 19-20, 2020. Pre-Audit preparation included a thorough review of the Pre-Audit Questionnaire and all documentation and materials submitted by the facility. The documentation reviewed included, agency policies, procedures, forms, staff training records and curriculum, inmate education materials and medical forms. A copy of the staff schedule and inmate roster were provided on the first day of the on-site audit. There were 23 inmates in-custody on the first day of the on-site audit. Concerns over the spread of the Coronavirus and a Statewide order issued by the Minnesota Governor to Stay-At-Home from March 27, 2020 – May 18, 2020 delayed Meeker County's PREA audit.

The audit notices were posted in visible areas throughout the facility 6 weeks before the audit and were still posted during the on-site audit. I did not receive any inmate correspondence throughout the audit process.

During the two days of the on-site audit, the auditor was provided an office to work and conduct confidential interviews with staff. Thirteen formal personal interviews were conducted with facility staff representing both shifts. Three random staff members, three staff members who perform risk screenings, two intake staff, two intermediate-or-higher level facility staff, and one investigator were interviewed. Also interviewed was one contractor and one medical professional. Interviews were conducted with the Chief Deputy and Jail Administrator, additional interviews conducted with the Jail Administrator included PREA Coordinator, administrative/HR staff, agency contract administrator, staff member charged with monitoring for retaliation, and the incident review team member. Confidential interviews with inmates were conducted in the program room. Ten random inmates were interviewed which meets the minimum requirement for a jail population of 23. There were zero targeted inmates identified to interview during the on-site audit.

Personal and training files were reviewed to determine compliance with training mandates, background check procedures and on-going background checks every 5 years of staff and contractors. Inmate files were reviewed to evaluate screening and intake procedures. Also reviewed was inmate education documentation and acknowledgments. The Meeker County Jail reported zero allegations of substantiated, unsubstantiated, or unfounded reports of sexual abuse and sexual harassment. The Meeker County Jail employs 17 full-time employees which include the Jail Administrator, 1 Sergeants, 2 Corporals, 1 Programmer, and 12 full-time correctional officers. Six additional part-time correctional officers are used to fill open shifts as needed.

A facility tour was conducted by the Sergeant. All areas of the facility were toured which included (booking, control, laundry, medical, programs area, staff breakroom, and 11 housing areas). The auditor observed location of cameras, staff supervision of inmates, placement of posters, PREA information resources, and security monitoring. The auditor observed toilets and sinks in each cell and private showers located in each housing area. In the dormitory housing units, there were private individual toilets and showers adjacent to the dayroom. The auditor was given access to all areas of the facility and talked to staff and inmates informally during walk-throughs of the facility during the visit.

Jail Administration has implemented a zero-tolerance policy for sexual abuse and sexual harassment. The Meeker County Sheriff's Office is a progressive organization who understands the value of well-trained staff. The Sheriff and Chief Deputy are updated on the daily operations in the jail and work closely with the Jail Administrator to resolve issues in the jail. Staff and inmates feel safe working and living in the facility. Staff were very welcoming, helpful, and understood their responsibilities in preventing, detecting, reporting, and responding to sexual abuse and harassment in the facility. Staff

and inmates were always made readily available to the auditor. The Administration of the Meeker County Jail are dedicated to continuous improvement, managing staffing levels and fostering a culture of zero-tolerance of sexual abuse and harassment of inmates. The Sheriff, Chief Deputy and Jail Administrator were readily available during the on-site audit.

On January 13, 2016, the Meeker County Jail was found in compliance with the PREA standards. Since the last PREA audit a new Jail Administrator was appointed.

During the past 12 months, the Meeker County Jail reported zero allegations of substantiated, unsubstantiated, or unfounded reports of sexual abuse and sexual harassment.

Interviews with inmates demonstrated they are provided PREA education and understood the agency's zero-tolerance policy. During the intake process inmates are given information on the agency's zero tolerance policy and how to report sexual abuse and harassment. Once an inmate is assigned to a housing unit and log into the electronic kiosk for the first time, the inmate is required to acknowledge they read and understand the PREA training. Inmates are required to acknowledge the PREA training every 30 days. Each housing unit has information posted, an information folder, and handbook available to the inmates. Inmates interviewed reported feeling safe in the facility and believed that staff would respond to any report of sexual abuse or harassment. An inmate orientation is completed by the Corporals.

Interviews with staff demonstrated initial and ongoing PREA training. Staff was knowledgeable about their responsibilities in detecting, preventing, reporting, and responding to sexual abuse and sexual harassment. Staff was able to articulate the different ways inmates and staff could report sexual abuse or sexual harassment and steps to follow if he/she were the first to respond to an incident. Staff expressed confidence that their administration takes all reports of sexual abuse and sexual harassment seriously and would investigate every allegation and would not tolerate any form of retaliation against staff or inmates. Staff reported feeling safe at work.

The Meeker County Jail has a signed Memorandum of Understanding (MOU) with Safe Avenues <https://www.willmarshelter.com/> to provide emotional support and be a third-party reporter. This information was verified by the Director. Safe Avenues information is posted in common areas of the facility.

After a review of documentation, tour of facility, and staff and inmate interviews, this auditor found the facility leadership to be progressive and well organized who expects and promotes a culture of zero-tolerance for sexual abuse and sexual harassment.
